

BOARDING ADMISSION FORM

We appreciate the opportunity to care for your pet while you are away. We feel we have created one of the finest boarding facilities in the area and welcome the opportunity to show you our facilities. Convenient drop-off and pick up hours have been created Monday through Friday from 7:00 A.M. to 5:30 A.M., and Saturday and Sunday from 8:00 A.M. To 9:00 A.M. and 3:00 P.M. to 4:00 P.M. In order to prevent the spread of disease within the boarding facility, an isolation area is available for sick animals that may be hospitalized at the time of your pet's visit. To further attempt to prevent any healthy pets from developing problems during their stay, we require that pets be current on all vaccinations. For dogs these vaccinations include rabies, distemper, parvo, corona, and bordetella. Required vaccines for cats include rabies, feline distemper, and feline bordetella. Feline leukemia is highly recommended, but not required. Owners must provide verification of vaccination from a veterinary hospital, either in writing or by phone, if not administered by May Veterinary.

All pets will be weighed and given a Capstar tablet upon entry into our boarding facility. The Capstar tablet kills external parasites, such as fleas, so that our facilities and animals stay clean of such problems and to prevent the spread of diseases that are transmitted by these parasites from one pet to another.

Toys, beds, and blankets with adequate identification may be left with pets. ***May Veterinary is not responsible for lost or damaged items.***

All pets are fed Purina EN, a low residue intestinal diet. If your pet is on a special diet for skin or any other reason you need to bring their food, however, it must be clearly marked with the name of the pet and have explicit directions as to how to feed.

Dogs are exercised outdoors, a minimum of two times per day, in a fenced area, weather permitting. Please inform us if your pet has a history of climbing chain link fences, opening gates, or storm anxiety.

Medications may be left with the veterinary staff to be administered according to the owner's instructions.

Although uncommon, if a pet should develop a medical problem while boarding, medical treatment will be provided by the veterinary staff of May Veterinary at the owner's expense.

Thank you for trusting May Veterinary with the care of your pet.
